

## Day 5

### Marquee

The <marquee> tag in HTML is used to create scrolling text or image in a webpages.

```
<marquee direction="right"> Lets Move this text.</marquee>
```

### We have four directions of Marquee

- direction="right"
- direction="left"
- direction="up"
- direction="down"

### Textarea

A multi-line text input control (text area):

```
<textarea rows="4" cols="50"> </textarea>
```
